One day when a whole bus full of us drove up to a hotel in Lynchburg, Va., says the New York Sun, the landlord remembered that he had a drummer from New York who had been suffering terribly with toothache for two or three days. He had tried every remedy known to man, except that of having it pulled, but nothing had availed him. He said he hoped some one of us might be able to suggest something, and slowly added:

"Gentlemen, I have heard that a sudden shock to a man's nervous system would sometimes cure the worst case of toothache. Can't you plan something?"

Six or eight of us got together in the reading-room, and it was finally decided that a man named Simms, who turned out to be a patent-medicine advertiser, should go up to the room and startle the New Yorker. He was to do it by claiming to have seen a dispatch to the effect that his wife had run away with another man. We thought that ought to cure his toothache if anything would.

"He did, and you kindly consented to shock his mental system. It was a great ecess."
"I cured it, did I?"

"You did." "But, great heavens! feel of me; look at me; keep on sponging! I'm nothing but a splatter of jelly! Boys, if I die, and I hope I will, I'll haunt every infernal one of you day and night until I drive you to hang yourselves with your own pender."
